

# ALICE WAINWRIGHT PARK SEAWALL AND BAYWALK IMPROVEMENTS

This project is part of Miami Recovery, the City's long-term COVID-19 economic recovery effort.

*City of Miami*

OFFICE OF CAPITAL IMPROVEMENTS

## PROJECT PHASES

### Phase 1: Provide shoreline improvements for the park:

- Replace the existing seawall and enhancing the waterfront with a new baywalk
- Protect the natural elements of the park against vulnerabilities to sea level rise, storm surge, erosion, and compounding flooding
- The proposed baywalk will be Americans with Disabilities Act (ADA) compliant

### Phase 2: Will be a part of a future development of this project:

- Upland park landscaping
- Restroom and office facilities for the park
- ADA access to the waterfront elements

## ALICE WAINWRIGHT PARK SEAWALL AND BAYWALK IMPROVEMENTS PROJECT

### New and improved elements will include:

- Replacement of existing seawall to mitigate sea level rise
- New baywalk - approximately 33,000 square feet, using pervious and compacted gravel (to allow water to drain into the ground)
- Drainage improvements
- Safety lighting
- New seating areas and trash receptacles
- Planting of 115 native trees, 3,520 shrubs and approximately 118,130 square feet of sod
- Removal of invasive plants and new landscaping
